### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Juan Carlos Marquez on 24 April 2006.

The application has been amended as follows:

In claim 7, line 11, change "request" to "requesting";

In claim 14, line 1, change "microcomputer" to "semiconductor integrated circuit"; and

In claim 15, line 1, change "microcomputer" to "semiconductor integrated circuit".

2. The following is an examiner's statement of reasons for allowance: the examiner generally agrees with applicant's arguments regarding the allowability of the claims as set forth on pages 7-9 of the remarks filed 3 February 2006. However, it is noted that applicant states regarding claims 5 and 6 that Bell does not show the bridge comprises a central processing unit. While this is true, the implication is that the claims require that the bridge comprise a central processing unit. The claims do not include any such limitations. But the examiner agrees with the other arguments set forth.

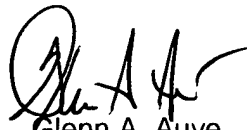

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
